INTEGRATING G SUITE IN LEARNING

Course Code: T&L 2900, Integrating G Suite in Learning

This blended course is designed for the beginner/intermediate technology user who has been introduced to the power of Google apps, but desires more guided practice with a goal of higher proficiency.

LEARNING GOALS:

- ✓ Create independent learning experiences with HyperDocs
- ✓ Redesign Slide decks to build in student interactivity
- ✓ Investigate extensions and add-ons to enhance the G-Suite experience
- ✓ Survey, assess, and analyze data using Forms and Spreadsheets
- ✓ Communicate and collaborate with advanced features of Hangouts
- ✓ Create and publish interactive learning using Epubs and Google Sites
- ✓ Reflect on best practices with peer coaching
- ✓ Discuss and reflect on professional practices through book study discussions
